

Step 1: Install Expo Go app by visiting these two links or search for **Expo Go** on App Store or Google Play Store

[iOS Download link](#)

[Android Download link](#)

Step-2:

After installing Expo Go on your phone the next step is to do either one of the following:

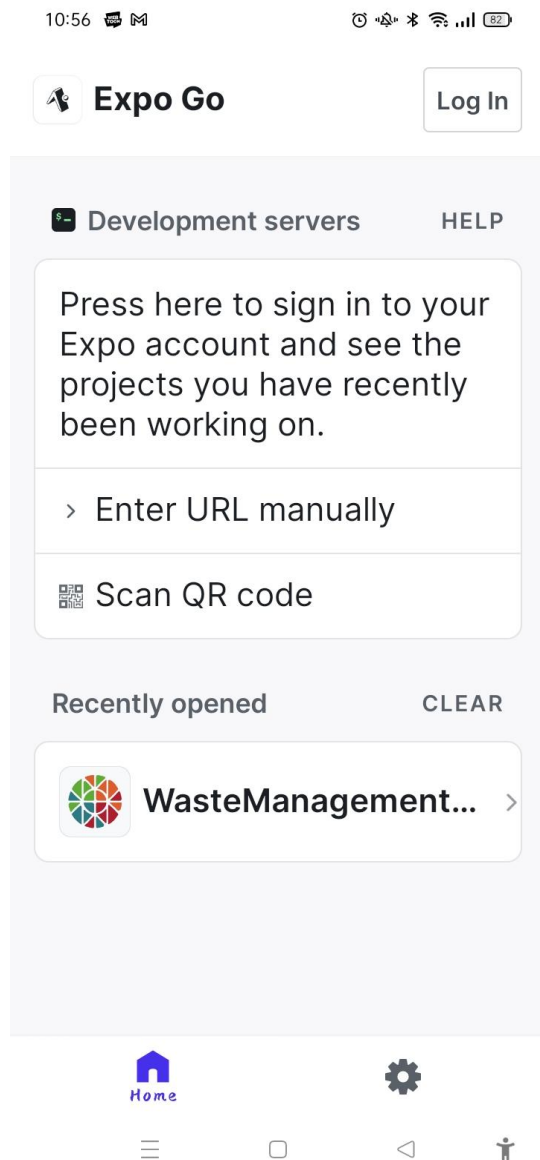

Note: For iOS devices you'll need to create an account in the Expo Go App

- Scan the QR code

- OR, open this link on your Device
`exp://exp.host/@cosc4086/WasteManagementProject?release-channel=default`

After following the step above you should be able to see the homepage of the App. If you have a screen that looks like this:

With Expo Go the app will still work the same on both platforms. To open the app just click on the project name (WasteManagementProject).

Note: However you'll have to launch the app from Expo Go rather than the App icon.
